

DESKOM successfully raises €3,3 million and opens its capital to 123Venture.

Paris, October 23th 2008 – 123Venture has invested €2.7 million in DESKOM, one of the major European e-invoicing operators, as part of a €3,3 million equity investment round. 123Venture joins existing investor Galileo Partners, just when Deskom's growth perspectives are very promising, after many years of development along with its clients.

As a major operator, which has largely contributed to structure its market, Deskom has been chosen by most of the leading French companies converted to e-invoicing including SNCF, Schneider Electric, Gaz de France, CEA, RTE, Saint-Gobain, Elixor, Midas, le Golda (Valeo, Honeywell, SKF, Starexcel, Bosch, ...), Inmac Wstore, Alcon, Procter & Gamble, Carrefour Belgique, ED, Goodyear, Vedioorbis, Inter Mutuelle Assistance, etc.

Proceeds from this latest round of finance will be used to allow the company to accelerate the growth of its network in a background of economic downturn where Deskom's solutions bring well-adapted answers to companies that search for immediate and significant costs reduction. Deskom's main objective for 2009 is therefore to reinforce its leadership by developing its client database, mostly in France and Europe, and out of Europe as of 2010.

Paul de Fréminville, 123Venture's Managing Partner, says « We have been convinced by both the successful development Deskom has achieved so far and by its growth potential. We have organized our financing package as to the current Deskom's management team be closely associated to the value creation».

Cyrille Sautereau, Deskom's chairman says «The development of our activity requires a strong ability to roll out our e-invoicing network around our current and prospective clients. The increase of our capital answers to our aim to accelerate business investments so as to ensure the fast growth of our e-invoicing network in Europe. The entrance of 123Venture into our capital is a strong proof of confidence regarding our clients that have already trusted us».

About DESKOM

Deskom is a leading French e-invoicing network and one of the European leaders in this market. Deskom's e-invoicing solution is officially and exclusively recommended by SAP France to its clients.

Its vocation is to help companies to optimize suppliers, customers and interco invoices treatment.

Deskom currently treats hundreds of thousands invoices per month, in France and Europe for the main leading French and European companies in more than 40 business sectors.

Deskom's fiscal dematerialization solution has been audited to be in compliance with French and European most recent regulations by "Ernst & Young et Associés" and is certified by GS1 (ex-Gencod).
